Experiment 9: GSM Service UI Prototype using Figma

Aim: To develop a user interface prototype for GSM mobile services using Figma.

Procedure:

1. Open Figma and create a new design file.
2. Create a mobile-sized frame.
3. Add the title “GSM Connect”.
4. Design service cards for voice calls, SMS, mobile data, and recharge.
5. Add icons, buttons, and a network status section.
6. Apply suitable colors, fonts, and spacing.
7. Create navigation elements for Home, Services, Recharge, and Profile.
8. Preview the design and save or export the prototype.

Output:

Result: The GSM service user interface prototype was successfully designed using Figma.
