Experiment 16: Network Performance Dashboard Using Figma

Aim: To design a dashboard displaying network performance metrics using Figma.

Procedure:

1. Open Figma and create a new design file.
2. Add the title Network Performance Dashboard.
3. Create metric cards
4. Add a line chart to represent network performance over time.
5. Add a bar chart to compare bandwidth usage.
6. Include a sidebar with Overview, Network Status, Performance, and Settings.
7. Use colors, icons, and clear labels to improve readability.
8. Align the components and use Present to preview the dashboard.

Output:

Result: A network performance dashboard prototype was designed in Figma using metric cards, performance indicators, and a line chart to visualize important network parameters.
