Experiment 17: Error Alert UI for Connection Drops Using Figma

Aim: To create an error alert user interface for connection drops using Figma.

Procedure:

1. Open Figma and create a new design file.
2. Add a Wi-Fi-off icon at the top.
3. Add the heading "Connection Lost!" in red.
4. Add a message explaining that the device has disconnected.
5. Create a status card showing Offline, Disconnected, and Last Connected.
6. Add a blue Reconnect button and a secondary Network Settings button.
7. Use the Prototype tab to link the Reconnect button to a connection-status screen.
8. Click Present to preview the interface.

Output:

Result: An error alert UI was designed to notify users about connection drops and provide options to reconnect or open network settings.5
